

Please, just let satellite radio alone. The NAB would be well served to work on removing some of the smut from our airways, as well as the biased reporting of the news. I pay for the XM service and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I and my family demand and deserve. Thank you
